Zimbabwe, 2 reports: 1 killing / 1 asylum - Most recent, Nov 29, 2012

*In Malawi more cases have been reported. In 2017, 102 cases were reported by the UN Independent Expert on albinism in the report of her official visit to Malawi. See UN document number: [A/HRC/34/59/Add.1](#) (March 2017). A few months later, in October 2017, the association of persons with albinism in Malawi reported 122 cases (Source: Malawi News Agency (MANA); *Lack of finances stalls 122 cases of people with albinism*; Wednesday, Oct 25, 2017; <http://www.maravipost.com/lack-finances-stalls-122-cases-people-albinism/>).

Under The Same Sun (UTSS) officially records cases after it has received a sufficient source and data: name of victim, type of attack, date, location, etc. Without access to such detail, UTSS is unable to enter these cases into its records for now; but recognizes that these reports are probably credible due to their sources.

.....

NOTE 1: The actual number of attacks & killings of PWA is likely much higher than indicated above since many are never reported or documented. These ritual attacks frequently find their roots in ancient ancestral beliefs and have been going on since time beyond memory.

NOTE 2: Countries known to be involved in the cross-border trade of PWA and their body parts: Tanzania, Burundi, Kenya, Democratic Republic of the Congo, Mozambique, Malawi, South Africa, Swaziland,

NOTE 3: UTSS gathers this data from its own field research and also from its partners on the ground. We record cases that have been thoroughly verified. However, this is not always possible. In such cases, we record cases from partners, media, and civil society that are reasonable and prima facie credible.

NOTE 4: This is a living document. It will be updated from time to time to reflect new data and clarifications/updates on data that was previously published.
