NOTE 1: The actual number of attacks & killings of PWA is likely much higher than indicated above since many are never reported or documented. These ritual attacks frequently find their roots in ancient beliefs and have likely been going on since time beyond memory.

NOTE 2: Countries known to be involved in the cross-border trade of PWA and their body parts: Tanzania, Burundi, Kenya, Democratic Republic of the Congo, Mozambique, Malawi, South Africa, Swaziland,

NOTE 3: UTSS gathers this data from its own field research and also from its partners on the ground. We record cases that have been thoroughly verified. However, this is not always possible. In such cases, we record cases from partners, media, and civil society that are reasonable and prima facie credible.

NOTE 4: This is a living document. It will be updated from time to time to reflect new data and to offer clarifications/updates on data that was previously published.
